

# Cookie Statement

---

Last updated: January 31, 2027.

## Scope

EPC – Intelligence LLC (EPC) uses cookies and similar technologies, including pixels, tags, beacons, SDKs, local storage, device identifiers, and comparable technologies (collectively, “Cookies”), on EPC websites, applications, cloud services, products, support portals, marketing pages, and other digital properties that link to this Cookie Statement (collectively, “EPC digital properties”).

We use Cookies to operate and secure EPC digital properties, remember your choices, understand how EPC digital properties are used, improve user experience, measure engagement, and, where permitted and based on your choices, personalize advertising and content.

This Cookie Statement supplements EPC’s [Privacy Statement](#). It explains how Cookies are used, why they are used, and how you can manage your choices. Product-specific notices, just-in-time notices, or in-product settings may provide additional information for particular EPC offerings.

**Note:** *This Cookie Statement does not govern third-party websites or services that are not controlled by EPC.*

---

## What are Cookies?

Cookies and similar technologies are small files, identifiers, scripts, pixels, software development kits, or other technologies that store information on, or access information from, your browser, device, application, or similar environment when you interact with EPC digital properties. They may be used to remember preferences, support sign-in, maintain security, enable requested features, measure usage, troubleshoot performance, support analytics, and deliver or measure advertising where permitted.

---

## Legal basis and consent

Where required by applicable law, EPC provides notice and obtains your consent before placing or reading non-essential Cookies. Strictly necessary Cookies do not require consent because they are needed to provide the digital property or service you request, maintain security, remember your privacy choices, or enable core functionality.

Where Cookies collect personal data, EPC processes that information as described in the [Privacy Statement](#). Depending on the jurisdiction, purpose, and technology involved, EPC may rely on consent, legitimate interests, performance of a contract, or another lawful basis for downstream processing.

***Important:*** EPC will not use this statement to override consent requirements that apply to storing information on, or accessing information from, your device.

---

## **Types of Cookies used**

EPC's Cookie Settings provide additional information about the Cookies used on relevant EPC digital properties, including cookie names, providers, purposes, categories, and durations where available. EPC generally uses the categories below.

### **Strictly necessary Cookies**

These Cookies are required for EPC digital properties to work and to provide services you request. They support functions such as:

- Sign-in
- Authentication
- Security
- Fraud prevention
- Load balancing
- Remembering privacy choices
- Language or region settings
- Completing requested transactions

**These Cookies cannot be disabled through Cookie Settings**, although you may be able to block them in your browser; doing so may affect functionality.

### **Performance and functionality Cookies**

These Cookies help EPC understand how digital properties are used, measure performance, improve functionality, remember preferences, support embedded content, and provide a more relevant experience. They may be set by EPC or by service providers acting on EPC's behalf.

Where required, EPC uses these Cookies only with your consent or provides an applicable opt-out mechanism.

## Targeting and social media Cookies

These Cookies may be used to deliver, personalize, limit, and measure advertising; understand marketing campaign effectiveness; support social media features; and help EPC and its advertising partners understand interactions across EPC digital properties and, where permitted, other sites.

**These Cookies are optional** and are used only where permitted and based on your choices. If you do not allow these Cookies, you may still see advertising, but it may be less relevant to your interests.

---

## Managing Cookie choices

Except for strictly necessary Cookies, you can manage your choices through Cookie Settings, the cookie icon or footer link where available, and relevant product or browser settings. You may change or withdraw your choices at any time.

Where required by law, rejecting or withdrawing consent will be made available in a manner that is as easy as accepting Cookies.

You may need to set preferences separately for each browser, device, application, or account context unless EPC has implemented a cross-domain or account-based preference mechanism and explains that scope to you. You can also use browser or device settings to delete or block Cookies.

Some browsers or extensions may transmit privacy preference signals, such as Global Privacy Control, and EPC honors such signals where required by applicable law and technically feasible.

---

## Third-party content, analytics, and advertising

Some EPC digital properties include third-party content or services, such as embedded video, social media features, analytics tools, advertising technologies, chat functionality, or similar services. These third parties may set or read Cookies or receive information about your browser, device, or interactions.

EPC's Cookie Settings provide additional details where available. Third-party services may also provide their own privacy and cookie notices.

---

### **Marketing emails**

When EPC sends marketing emails, they may include pixels, web beacons, or similar technologies that help EPC understand whether an email was delivered, opened, or interacted with, and whether links were clicked.

You can manage marketing preferences or unsubscribe using the links in EPC marketing emails or the mechanisms described in the [Privacy Statement](#).

---

### **Changes to this Cookie Statement**

EPC may update this Cookie Statement to reflect changes in law, guidance, technology, EPC digital properties, or EPC's use of Cookies and similar technologies. We will update the "Last updated" date when we make changes and provide additional notice where required by law.

---

### **Contact information**

If you have questions about this Cookie Statement or EPC's privacy practices, contact EPC's [Data Protection Officer](#) or use the contact methods described in the [Privacy Statement](#).
